

PROFILE

IT Engineer with an MSc in Data Analytics from the University of Brighton, skilled in SQL, Python, R, SAS, and Power BI. Experienced in analyzing large datasets, performing data visualization, and translating complex findings into actionable business insights.

EDUCATION

**MSc in Data Analytics** 2026  
University of Brighton, United Kingdom  
**Bachelor of Engineering** 2023  
Information Technology, Mumbai University, India

CERTIFICATION

**SAP Certified Development Specialist**  
ABAP for SAP HANA 2.0  
Certificate No. 0025823234

ACADEMIC PROJECTS

**Explainable Machine Learning for Hazardous Asteroids** 2026  
*Master's Data Analytics Project*  
Built ML models using NASA JPL orbital data. Applied feature engineering, SMOTE, Model Comparison. Used SHAP for explainability.

**Hotel Booking Analysis** 2026  
*Data Analytics Project*  
Analyzed 21,996 hotel booking records using Python, SQL Server, and Tableau. Performed SQL-based revenue and ADR analysis and developed an interactive dashboard to visualize key business insights.

**BOB Online Fashion Retailer Case Study** 2025  
*Business Analytics*  
Customer segmentation, funnel analysis, and revenue growth insights using CRISP-DM.

**King County Housing Analysis** 2025  
*Data Mining*  
Exploratory data analysis using Python, visualisation, and correlation analysis.

**House Price Prediction Model** 2026  
*Machine Learning*  
Built regression models (Linear, Random Forest, Neural Networks). Evaluated with RMSE and cross-validation.

**Google Play Store Analysis** 2025  
*R Statistical Analysis*  
Cleaned data, studied ratings, and built regression models.

**Airline Customer Loyalty Analytics** 2026  
*Customer Analytics Project*  
Analyzed 392,936 flight records and 16,737 customer profiles

TECHNICAL SKILLS

**Data Analytics:** SQL, Python, R, SAS, data cleaning, data visualisation, regression analysis, statistical modelling, hypothesis testing, A/B testing, cohort analysis  
**Ecommerce Analytics:** funnel analysis, customer segmentation, churn analysis, conversion rate analysis, CLV, KPI tracking  
**BI Tools:** Power BI, Tableau (basic), dashboard reporting, data storytelling  
**Programming:** Python, R, Java, Advanced Java, OOP  
**Database:** SQL, MySQL  
**Other:** Machine learning basics, feature engineering, Git (basic)

CORE STRENGTHS

Data analysis, statistical modelling, predictive analytics, business insights, technical documentation, and problem solving across large datasets.

using Python and Pandas. Performed CLV analysis, customer segmentation, and churn analysis to identify high-value customers and improve retention strategies.

**Housing Sales Analysis using SAS** 2026  
*SAS Analytics*  
Regression modelling and statistical analysis using PROC GLM.

**Database Design Project** 2025  
*Data Management*  
Designed relational database with star schema, GDPR compliance, and BI reporting structure.

**Survival Analysis Study** 2026  
*Medical Statistics*  
Kaplan-Meier, Cox regression, hazard ratios, and model diagnostics in R.

**Medical Statistics Case Study** 2026  
*Biostatistics*  
Chi-square, Poisson regression, odds ratios, and hypothesis testing.

**Android Placement Prediction App** 2023  
*Final Year Project*  
Built ML-based Android app for placement and salary prediction.

**Tourism Website Project** 2023  
*Web Development*  
Full-stack website with database integration.

**Fire Detection System** 2023  
*Embedded Systems*  
Sensor-based fire detection and automatic sprinkler system.
